Focused on smart locks solution

Shenzhen Ilockey Technology Co.Ltd
2021 Edition

Company Profile

Ilockey is a leading smart lock company in China, the founding team has specialized in designing and manufacturing smart door locks for more than 13 years. We provide one-stop smart lock solutions for different places, such as public areas, smart access for private residences, traditional hotels, homestay, and short renting.

Our products include smart door locks, hotel door locks, smart cabinet locks, and lock accessories. All of our smart locks are strictly according to CE, SGS & Europe fire test standards.

Especially our hotel lock system, as it is integrated into the Opera PMS, it is easy for you to win the high-end hotel project. Our smart locks have been widely used in many brand companies, like Technogym, IHS Hotel & Resort, Good feeling fitness, Huawei Talent apartment, etc.

With an area of 5,000 square meters, we can do nearly 200,000 pcs a year. 13+ years professional sales and after-sales team to offer fast response and timely service, our clients feel like spring breeze to communicate with us.

If you are looking for a Chinese custom smart door lock manufacturer or have limited experience on how to custom your lock system, Ilockey will be your essential choice.

QUALITY CONTROL

Illockey focus on every detail during R&D, manufacturing and sales, we strictly execute the 5S management rules in the production line to ensure the quality of final products.

We always strive for excellence from the raw material and use the internationally renowned high-end brand components and parts, which will ensure the stability for our products.

The PCB module are with moisture test, mouldproof proccession and high-low temperature test, vibration test and life test for special using condition.

PCB LIFE TEST

SWITCH LIFE TEST

Energy Saving switch is with 24 hours continuous test under wide range 65-260v. working current capacity is 40AMP, it is much higher than the normal energy saver in the market.

SMT

SMT PCB production ensured the stability of our lock CPU, which solved the problem of pseudo soldering, welding leakage and short circuit and guarantee your safety during use.

HIGH AND LOW TEMPERATURE TEST

High and low temperature test for PCB board, which ensure the using life under hot or cold condition.

CIRCUIT BOARD ASSEMBLY

Integrated PCB module provide one quick solution for maintenance;Friendly software provide you one easy and comfortable experience for managing the whole system!

LOCK MORTISE

Mortise is with Japan Mabuchi Motor, it is stable and reliable. Continue life test for motor is over 1000,000 times.

Smart Door Lock

Features:

1. Replace lever handle with single latch or mortise directly.
2. TUYA App is the key and also management interface.
3. Compatible with various mortise to fit 99% doors.
4. One-Touch-Access Biometric Fingerprint sensor on the reader.
5. Strong and secure Aluminum alloy lock panel, Anti-corrosion and sturdy.
6. Life cycle can reach min 300K times.
7. Back-up USB external power supply interface, in case the power is dead.
8. Reversible free style handle.
9. CE, RoHS, FCC Certified.
10. Suitable for Wooden Door, Security Door, Iron Door

Parameter:

Communication mode	Wifi or Bluetooth
Support system	IOS 7.0 or above Android 4.4 or above
Power supply	4pcs AA Alkaline batteries
Battery life	10000 times normal open
working temperature	-20~50 degree
working humidity	10%-95%
Mortise	single latch 60/70 3585/4585/ 6085/ 6072 / 5572
Door Thickness	35-65mm

Dimension:

Mortise Options:

Europe Mortise

Specification:

Available for 35/85,45/85,60/85 mortise for europe market.
 60/85 mortise is specially designed for mechanical key records.
 Mortise latches and deadbolt are with 304# stainless steel material.
 Available to use on the aluminum door with hotel lock Jk700.
 Available to change the old lock without changing the mortise.
 Mortise is with life test 300,000 times above.

70# ANSI Mortise

Specification:

With standard 70mm backset ANSI mortise.
 Inside parts are with blue zinc treatment to reach the environmental protection requirement.
 Microswitch inside the mortise is with over 1000,000 times life test.
 Latch and deadbolt parts are with 304# die casting stainless steel material,durable and reliable.
 Flat spring for the mortise is with imported piano wire with 500,000 times life test.
 Spindle part is with special steel and heat treatment with over 1000,000 times test.
 High quality motor with 500,000 times life test. ensure the long years use.
 Patent structure design with simple change for left and right direction.

Europe motorized 55/72 mortise

Specification

Europe motorized 55/72 mortise
 Patent design for the inside structure
 Europe style mortise with 55mm backset
 304# die casting stainless steel latch and deadbolt
 304# spindle clutch ensure long time use
 Available to pull upward to activate the deadbolt
